

## **Condemnation of Anti-Choice Candidates in LA County**

**WHEREAS** the Los Angeles County Democratic Party has a vested interest in who runs for office in Los Angeles County since these offices have significant power to directly shape policies throughout the County and to influence political discourse well beyond; and

**WHEREAS** the long fight to protect women's reproductive health and rights has taken a perilous turn as the Republican-stacked US Supreme Court silently allowed Texas to make abortion at 6 weeks a crime - before most people even know they are pregnant; and

**WHEREAS** this dangerous state of affairs has only become possible because of the financial support of conservative anti-abortion crusaders from individuals throughout the country;

**THEREFORE BE IT RESOLVED** the Los Angeles Democratic Party strongly condemns anti-choice candidates in LA County and encourages campaign staff, consultants, and others to strongly consider Democratic Party values and the platform when determining which candidates to work for; and

**BE IT FURTHER RESOLVED** we will share this resolution to the California Democratic Party, all the state Democratic Parties, the DGA, DCCC, DSCC, DNC and to our siblings in organized labor.
